*	Please indicate which scope(s) handle the material in case the certificate covers more than one scope. This does not apply for the following scopes: Trader, Trader with storage, Warehouse, Logistic Center, MTBE and ETBE plant					
1)	1: Default value					
	2: Actual value					
	3: NUTS2 value or "NUTS2-equivalent" value. A "NUTS2-equivalent" value is a GHG value for cultivation in a "NUTS2-equivalent" region of a country outside the European Union (values are implemented by the European Commission). Option 3 is only applicable for the level of cultivation, i.e. for first gathering points, farms/plantations, central offices (group of farms or independent smallholders)					
2)	A: The raw material meets the definition of waste or (processing) residue according to the RED III					
	B: The raw material complies with the relevant sustainability criteria according to Art. 29 (2)-(7) RED III					
3)	ISCC EU add-ons (voluntary application, see www.iscc-system.org for further information):					
	• 202-04: Food Security Standard • 202-09 EU Deforestation Regulation (EUDR) • 205-03: Non GMO for food and feed • 205-04: Non GMO for technical markets
